# Guide to Art Prints

More detailed information and additional prints are available through our web site at:  
[www.RicherResourcesPublications.com](http://www.RicherResourcesPublications.com)

Please visit this site to see our full line of greeting cards, prints and books.

For ease in using this catalog for ordering, please refer to any photographic image or art print by the title page at the top of the images and cite the row and column number of the image.

For example, on the page showing color photographs of flowers, the pink rose in the second row would be noted as Flowers 2-2 for row 2, column 2. The red rose at the end of the third row would be noted as Flowers 3-4. If you would like to offer a brief description of the product as well, that would be fine. We apologize for any inconvenience in this system but space prohibited detailing the name and number of each item as we attempted to use the available space to make each image as large as possible rather than use that same space on names and numbers. Again, more information on any image can be easily found on our website and all of these images, plus more, are on our site.

If you have any questions, please feel free to call or email us and we will be more than happy to assist you on line or on the phone. We also offer live chat on our web site as well during most times of the day.

## Greeting Cards & Art Prints
